

Hi my name is Kayla Vergara I am a senior at Chaminade Madonna and am planning to graduate on May 30th of 2019. I plan to attend either Nova Southeastern University or Ave Maria University. I would like to earn a Doctorates degree in physical therapy and specialize in sports injuries. I currently maintain a 4.62 GPA and take all honors and AP course classes. I have received over 500 service hours over the past four years by helping with school functions, athletic games, and religious services with my parish. Every Saturday morning I go to the abortion clinic near my house and pray the rosary with my parish to end abortion, I have also volunteered at multiple fundraisers in support of the pro-life movement. I am the student body Vice President of my school and have had student government positions all four years of high school. I am secretary of two clubs on campus and am part of multiple honor societies including Tri-M, science honor society, English honor society, and Spanish honor society. One of my passions here at Chaminade has been playing basketball which I have done for 4 years. I have been captain and co captain since freshman year, and I also briefly played soccer and volleyball for my first two years at school.
